Title:

Urease-based Vaccine and Treatment for Helicobacter Infection

Assistant Commissioner For Patents Washington, DC 20231

INFORMATION DISCLOSURE STATEMENT

Applicants submit the references listed on the attached form PTO-1449.

Submission of this statement is not a representation that a search has been made, nor is information included in this statement an admission that the information is material to patentability.

Under 35 U.S.C. § 120, this application relies on the earlier filing date of application serial number 08/200,346, filed on February 23, 1994. The following references were submitted to and/or cited by the Office in the prior application and, therefore, are not provided in this application:
